STOPit Incident Monitoring Service (IMS)

STOPit IMS is a 24 hour per day, 365 days per year monitoring service. Staffed with a 3 shift operation with operators fluent in multiple languages, STOPit IMS is your safety and security backup team!

Operators review inbound messages and manage a tip line and in the event of an urgent issue will contact emergency contacts and/or emergency services for you. Account specific reports are assigned to your administrators so they only work on reports that are relevant to them.

Get the best of everything: STOPit Incident Management to keep your environment positive, and STOPit IMS to monitor your environment and take appropriate emergency action if ever needed.

STOPit has been proven to help organizations around the world improve their ability to both respond to messages and deter incidents in a community. STOPit addresses issues such as:

- ✓ **SAFETY**
- ✓ **CYBERBULLYING**
- ✓ **VIOLENCE**
- ✓ **HARRASMENT**
- ✓ **SUBSTANCE ABUSE**
- ✓ **SELF-HARM**
- ✓ **POLICY VIOLATIONS**

The STOPit platform provides a safe, anonymous and comfortable way for individuals to share information with you so that you can provide help – as quickly and efficiently as possible.

STOPit gives administrators powerful investigative tools – such as real-time alerts, built-in reports, and the ability to communicate directly with incident submitters – so that you can resolve issues quickly.

STOPit is a proven and powerful deterrent.
